

# Introducing Reflectix® Insulation

Use Reflectix® in tandem with foam insulation.

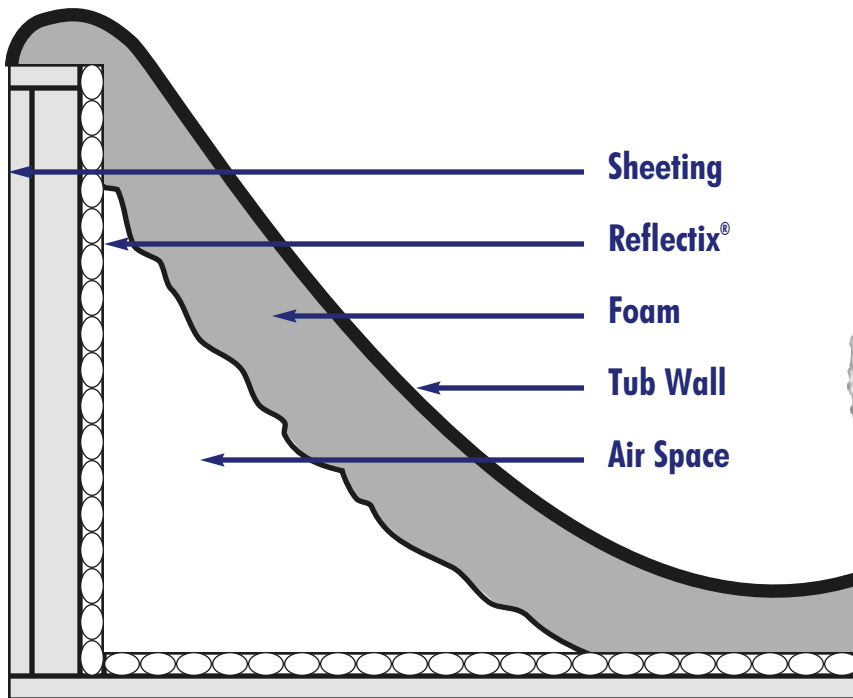

## Benefits:

- Reflects 97% of radiant heat
- Non-toxic/Non-carcinogenic
- Does not compress, collapse or disintegrate
- Class A/Class 1 Fire Rating
- Durable and lightweight
- Fiber-free
- Controls condensation
- Environmentally safe
- Does not promote nesting of insects or rodents
- Easy to Install
- Prevents mold and mildew
- Not affected by moisture and humidity
- Permanent and maintenance free

## Features:

- Reflectix® retains heat from spa plumbing and reflects radiant energy from outside sources
- Reflectix® Insulation is lightweight, saves weight compared to full foamed spas. This assures portability and easier delivery.
- Easy Access: Instead of removing layers of foam just pull away Reflectix® Insulation to expose.
- Reflectix® does not require protective clothing or respirators to install.
- Lowers operating costs.

Reflectix, Inc. is there for today's spa manufacturer. Our products are environmentally safe, easy to install and competitively priced. It Works. It's Just That Simple.
